

Notice to all Patients:

Please note that our Practice is temporarily closed to all local transfer patients from the NH Seacoast & surrounding areas looking to establish with our Practice. This policy does not affect any newborn children or patients transferring from out of state and moving to our area.

Any medically complex children wanting to transfer to our group will be reviewed on a case-by-case basis by our Physicians.

Finally, we ask that you please be patient and understanding with our Providers and Staff as we work to accommodate the high volume of calls, appointments, and requests that we are managing.

Thank you.
